

Subject: Technical Publication – Pricing Policy and New Manual

Effectivity

Dornier 328-100 and 328-300
EASA TCDS A. 096
Serial No's: All Aircraft i.a.w. EASA TCDS

General

328 Support Services is offering comprehensive information about Dornier 328 operation, handling and maintenance in hard copy, and, to a limited extent, in digital format. This documentation can be obtained from 328 Support Services as initial copies and additional copies, plus respective subscription services. Viewing and down load of valid pricelists is offered on 328 Support Services' home page www.328support.de/en/downloads.php.

New Pricing

All available Dornier 328 Aircraft Documentation have been reviewed and despite increased prices for material and printing we are pleased to announce that our price list remains unchanged until Dec. 31, 2010.

328 Support Services will revisit the pricing before the end of this year and decide about pricing in 2011.

New manual

In the frame of FAA Part 26 Subpart E regulations 328 Support Services released a new manual Fatigue Critical Baseline/ Alteration Structure Manual (FCB/ ASM) and the associated Repair Evaluation Guideline (REG) for all Dornier 328 aircraft. This should serve as a medium through which all Dornier 328 operators and STC holders of alterations for Dornier 328 are informed about fatigue critical structures.

Related information is available either in combination with a CD ROM or in digital format (pdf on CD ROM medium) only. For pricing please visit www.328support.de/en/downloads.php.

Terms of Payment

Based on the experience that payments for subscriptions have been received with considerable delay in the past, 328 Support Services decided that payment terms are set to "cash in advance" for all subscriptions.

Orders

All orders will continue to be administered through Technical Publications Department from our partner GCT DO:

Horst Schuller
Head of Technical Publications
GCT Design Organisation GmbH
D-82234 Wessling
Office +49 (0) 8153-9313-276
