Dear valued Customers,

Kindly be informed that 328 Support Services GmbH is fully aware about the current situation on simulator availability within Europe and the World.

We were as surprised as you, when we received the message that CAE will cease operation of the 328 Turboprop simulators in Madrid and Toronto, some 4 weeks ago.

Since we received that unfortunate and short notice from CAE we took some immediate action to secure the simulator training for the 328 Turboprop, long term.

Therefore, we can assure you today that we as the TC-Holder are fully behind that topic and confident that we are able to present a suitable way forward to you in the near future.

If we can be of further assistance, please do not hesitate to contact us.

Yours sincerely
